

# ICR 2025

## 10<sup>th</sup> International Conference on Interactive Collaborative Robotics

<https://icr.nw.ru/>

**November 10-13, 2025**

**Hanoi, Viet Nam**

### CONFERENCE

The International Conference on Interactive Collaborative Robotics (ICR) was established as a satellite event of the International Conference on Speech and Computer (SPECOM) in 2016. The conference gathers together experts from different communities to discuss challenges of human and robot collaboration in industrial, social, medical, education and other areas. Fundamentals and means for collaborative behavior of one or multiple robots with physical interaction with people in operational environment equipped with embedded sensor networks and cloud services in conditions of uncertainty and environmental variability are the main issues of the conference. ICR 2025 will be held in hybrid format.

### PAPERS SUBMISSION

The authors are asked to submit their papers using the on-line submission system: <http://ia.spcras.ru/index.php/icr2025>.

Submitted papers should not be considered by another conference and published earlier or accepted for publication in another editions. Authors should submit for review 12-15 pages long papers in English formatted in the Springer style.

Accepted papers must be personally delivered at the conference by the authors as an oral or poster presentation.

### LANGUAGE

The official language of the conference is English.

### PROCEEDINGS

The accepted papers will be published in the proceedings of the ICR 2025 conference in English in the Springer LNCS (LNAI) series indexed in Scopus (Q2), EI-Compendex and Springerlink.

### ORGANIZERS

- Le Quy Don Technical University (Hanoi, Viet Nam)
- St. Petersburg Federal Research Center of the Russian Academy of Sciences (St. Petersburg, Russia)

### GENERAL CHAIRS

- Tran Xuan Nam, Viet Nam
- Andrey Ronzhin, Russia

### TOPICS

- autonomous unmanned vehicles
- artificial intelligence technologies in control
- assistive robotics
- collaborative robotics
- control of robotic systems
- educational robotics
- household robotics
- medical robotics
- safety of robotic systems
- service robots

### IMPORTANT DATES

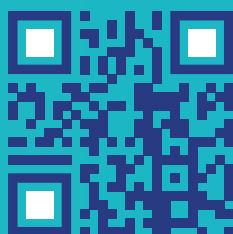

September 01, 2025 ..... Submission of full papers (extended)  
September 20, 2025 Notification of acceptance  
October 01, 2025 ..... Camera-ready papers and registration  
November 10-13, 2025 ..... Conference dates
